AAIN MISSION

Incubating agribusiness - incubators through advancing entrepreneurial, talent, networking, integrating science and technology for job and wealth creation in Africa.

AAIN CONFERENCE TRAP THE UNTAPPED

Africa is a continent lucrative for any nature of business. It is the world's second largest continent and one of the top 5 fastest growing economies in the world. Africa has 54 countries; with an estimated population of 700 million. Africa has more than half of the world's fertile and arable land yet most of it underutilized. Africa imports food worth over 25 billion dollars annually. Approximately 39 million hectares of agricultural land in Africa is suitable for irrigation, yet only 7% of this arable land is currently irrigated. The huge untapped potential of Africa is actively pursuing business ventures across the globe. It's hugely untapped market thriving for new products & technologies.

The Participants from more than 70 countries include Innovators, private sector players, Senior Scientists, Eminent agricultural academicians, Engineers, Decision makers, Researchers, Policy makers, Diplomats, Govt. agencies, Start-ups, and Investors in Africa responsible for developing practices and procedures in agriculture and agribusiness value chain.

AAIN conference offers unique opportunity for the participants to grab the global attention and also expand their businesses. It's a great opportunity to participate and Trap the UnTapped market.
